Protection Film - Automotive Series

Product Description

High adhesion edge securing tape for freshly painted surfaces

Product Features

Protection film consists of an UV-stabilised backing coated with a high adhesion EVA adhesive.

- Paint protection during outdoor storage up to 12 months
- Secure adhesion during transport
- Easy disposal - both the film and the adhesive system are environmentally friendly

Backing Material	Polyolefinic Film
Total Thickness	96 µm
Adhesive Type	EVA
Adhesion to Steel	3 N/cm
Adhesive Tape Colour	White
Elongation at Break	660 %
Tensile Strength	21.5 N/cm
UV Resistance	52 weeks
Easy to Remove	Yes
Suitable for Die-cutting	Yes
Paint Compatibility	••••
Resistance to Chemicals	••••
Evaluation:	•••• very good ••• good •• medium • low

Main Application (not limited too)

Ensures high strength adhesion and can be used to keep protection films securely in place, especially in areas of difficult geometries to prevent dust and humidity penetration.
Die-cutting and as printed marking, security or steering labels.
Base material for heavy duty protection pads for bumpers and door edges.
